Rocker Garage — Map & Manifest
v1 · Generated for Greg

```
Rocker Garage — Site Map & Asset Manifest (v1)
==============================================

Bucket
------
- s3://rocker-garage-assets

Primary prefixes
----------------
- rg/prod/        ← live assets used by the site
  - img/
  - audio/
  - video/
  - fonts/
  - build/
- rg/staging/     ← I test here first
- rg/upload/      ← YOU drop raw files here (any names)
- rg/archive/     ← old versions kept for rollback
- rg/meta/        ← manifest & notes

Pages (phase 1)
---------------
1) /site/index.html  (Intro / Neon Logo)
   Needs:
    - Background (PNG) .......... s3://rocker-garage-assets/rg/prod/img/rg_bg_garage_v7.png
    - Headlights overlay (PNG) .. s3://rocker-garage-assets/rg/prod/img/rg_bg_headlights_v3.png
    - Logo pick (PNG) ........... s3://rocker-garage-assets/rg/prod/img/rg_logo_main_v7.png
    - Slogan (PNG) .............. s3://rocker-garage-assets/rg/prod/img/rg_slogan_main_v7.png
    - Enter button (PNG) ........ s3://rocker-garage-assets/rg/prod/img/rg_enter_btn_v7.png
    - Amp hum (OGG) ............. s3://rocker-garage-assets/rg/prod/audio/rg_audio_amp_hum_v2.ogg
    - V8 rev (OGG/MP3) .......... s3://rocker-garage-assets/rg/prod/audio/rg_audio_v8_rev_v1.ogg

2) /site/team.html  (NEXT)
   Needs:
    - Background (optional) ..... s3://rocker-garage-assets/rg/prod/img/team_bg_v1.png
    - Avatar: Axe (PNG) ......... s3://rocker-garage-assets/rg/prod/img/avatars/axe_v1.png
    - Avatar: Nyxx (PNG) ........ s3://rocker-garage-assets/rg/prod/img/avatars/nyxx_v1.png
    - Avatar: Torque (PNG) ...... s3://rocker-garage-assets/rg/prod/img/avatars/torque_v1.png
    - Avatar: Kimi (PNG) ........ s3://rocker-garage-assets/rg/prod/img/avatars/kimi_v1.png
    - Hover/Click sfx (OGG) ..... s3://rocker-garage-assets/rg/prod/audio/ui_hover_v1.ogg
    - Select sfx (OGG) .......... s3://rocker-garage-assets/rg/prod/audio/ui_select_v1.ogg

Upload Rules (you do this)
--------------------------
1) Drop any new/updated files to:
   s3://rocker-garage-assets/RockerGarage_FinalPro_v7/rg-upload/

2) Tell me: "uploaded background v8 & rev audio v2"
   I will:
    - Rename → rg_<area>_<thing>_v#.ext
    - Move to rg/staging/...; verify
    - Promote to rg/prod/...; update code
    - Note change in rg/meta/manifest.json

Naming Template
---------------
- Images:  rg_<area>_<thing>_v#.png    (ex: rg_logo_main_v7.png)
- Audio:   rg_audio_<thing>_v#.ogg     (ex: rg_audio_amp_hum_v2.ogg)
- Avatars: rg_<area>_<name>_v#.png     (ex: rg_avatars_axe_v1.png)

"What do you need from me?" checklist
-------------------------------------
For Team page:
[ ] axe_v1.png  [ ] nyxx_v1.png  [ ] torque_v1.png  [ ] kimi_v1.png
Optional:
[ ] team_bg_v1.png  [ ] ui_hover_v1.ogg  [ ] ui_select_v1.ogg

Notes
-----
- You never have to run AWS commands—just drop to rg-upload/ and ping me.
- I'll keep prod/staging/archive tidy and wire code to S3 URLs.
```
